

KNITSHELL™

By Dale of Norway

THE NEW ALL CONDITION WEAR

KNITSHELL™ – Innovative Knitwear by Dale of Norway®

The KNITSHELL™ collection by Dale of Norway is a unique combination of performance and style.

Dale of Norway, in collaboration with WINDSTOPPER® is proud to offer a new unprecedented technology to the market: KNITSHELL™. For a number of years, Dale of Norway and WINDSTOPPER® have collaborated to produce top quality clothing. The new KNITSHELL™ technology demanded numerous hours of research and development to successfully conserve the properties of wool while creating a membrane that could perfectly adhere to knit.

The new 3-layer laminated system of water repellent Dale of Norway yarn, and a soft WINDSTOPPER® membrane, gives you a garment that keeps you warm, comfortable and looking good in any conditions.

So zip up for a great day on the mountain, and remember that advanced weather protection does not have to stop you looking your best.
